Gary Seath

AI Voice Agent & Voice Hardware Developer | Former PwC &
Deloitte Senior Manager
City of Johannesburg, Gauteng, South Africa

Summary

I design and build AI voice agents and dedicated voice hardware for real-world use in senior care and retail. My focus is on robust, low-friction voice experiences that people actually use – not just demos.

“Decades of consulting and leadership (PwC, Deloitte, Birches Group, Hay Group) – translating complex technology and data into clear business value.”

An early-career electronics and process control background – now applied to ESP32 / Raspberry Pi voice terminals with custom mic/speaker design, push-to-talk, and local hubs.

Practical Python and AI integration – wiring together STT, LLMs and TTS into reliable conversation flows, including barge-in handling, watchdogs and subscription logic.

I’m currently focused on two domains:

Elderly companions & learning units – dedicated talking devices (no screens, no apps) that provide companionship and guided “masterclasses” (e.g. languages, cooking, hobbies) to seniors living alone.

In-store voice assistants – kiosk-style units in tile/bathroom and similar retail environments, answering detailed product and stock questions before staff are engaged.

I’m open to:

Freelance / contract work in AI voice agent design, testing and integration.

Pilot projects in retirement communities or retail, where a small number of units can be trialled and iterated in the field.

“I’m actively looking for pilot partners and contract work where voice can meaningfully improve customer or resident experience.”

Experience

AI Voice Technology

AI Voice Agent Developer / Integrator

October 2025 - Present (8 months)

City of Johannesburg, Gauteng, South Africa

Design and implement AI voice agents backed by cloud STT/LLM/TTS services, with a focus on robust turn-taking, barge-in handling and subscription-aware logic for seniors and retail pilots

Build and test ESP32/Raspberry Pi-based voice terminals (mic, speaker, PTT) as front-ends to these agents.

MindStudio

Brand Ambassador

September 2025 - Present (9 months)

8605 Santa Monica Boulevard, West Hollywood, CA 90069-4109 United States

Demonstrating the ROI of Agentic AI. I build custom voice and text agents that solve the 'Top of Funnel' bottleneck for technical sales team and apply the same design patterns to dedicated voice hardware units for seniors and retail.

Webdezigner

Web Developer

January 2019 - Present (7 years 5 months)

City of Johannesburg, Gauteng, South Africa

Continued to design and build small web applications, increasingly incorporating AI-backed chat and voice interfaces as that technology matured.

Tides and Trails

Managing Director

January 2021 - April 2026 (5 years 4 months)

South Africa

Previously operated as a travel and experiences business. In 2025 I wound down active travel operations and pivoted fully into building AI voice solutions and dedicated voice hardware, leveraging my consulting and customer-experience background.

Go with me

Owner of Go With Me - Award-winning cruise travel and events company

January 2019 - April 2026 (7 years 4 months)

Johannesburg Area, South Africa

From 2025 onward, I transitioned away from cruise travel events to focus on AI-driven voice companion and retail-assistant solutions, using lessons learned in customer journeys and service design.

Rosebank Union Church

Independant HR Consultant

January 2019 - December 2023 (5 years)

City of Johannesburg, Gauteng, South Africa

HR Management - All statutory policies including specific policies such as Covid policies, etc

Remuneration Committee

Labour relations and disciplinary representation at CCMA

Birches Group LLC

Independent Business Owner

January 2015 - December 2018 (4 years)

New York, United States

Executive & Non Exec Director pay

Remuneration benchmarking

Reward consulting & Training

Deloitte

Senior Manager

2012 - 2015 (3 years)

Johannesburg Area, South Africa

Managed executive-level relationships and technical remuneration data. This role refined my ability to translate complex data into boardroom-ready sales strategies.

PwC

Senior Manager

2009 - 2012 (3 years)

Johannesburg Area, South Africa

Managed executive-level relationships and technical remuneration data. This role refined my ability to translate complex data into boardroom-ready sales strategies.

PBS Management Consultants

Business Partner

2005 - 2009 (4 years)

Johannesburg Area, South Africa

Executive reward consulting

Organisational Design

Performance Management

Hay Group

Survey Manager

2001 - 2005 (4 years)

Johannesburg Area, South Africa

Developed, conducted & managed salary surveys in 10 African countries

Uwin Iwin Incentives Pty Ltd

Managing Director of NetUwin.com

1998 - 2000 (2 years)

Johannesburg Area, South Africa

Managing Director of NetUwin.com (Pty) Ltd

UwinIwin Incentive Group

Non-Ferrous Metal Works SA (Pty) Ltd

JHB Sales Manager

January 1993 - December 1997 (5 years)

City of Johannesburg, Gauteng, South Africa

Managed the primary sales hub for copper and brass semis. Deep technical knowledge of metallurgical specs in the greater Johannesburg industrial manufacturing network.

Instrotech

National Sales Manager

January 1984 - December 1989 (6 years)

City of Johannesburg, Gauteng, South Africa

SADF

Lieutenant

January 1982 - December 1983 (2 years)

Heidelberg, Gauteng, South Africa

Signals Officer - Military signal communications

Education

Technikon Witwatersrand

Diploma, Electrical and Electronics Engineering · (1982 - 1985)
